Performance Score Summary

Each indicator or indicator subpart is scored using a 3-point scale. In some cases, institutions may qualify for an additional 0.5 for achieving a certain level of improvement over past performance. In 2002, systemic scoring procedure revisions led to fewer indicators contributing to the overall score. Of the 37 indicators used in past years, all are still measured - some assured through institutional policy, some measured through existing scored indicators, and some monitored but not scored. For more detailed explanation of these changes consult Performance Funding Workbook, November 2002 at www.che.sc.gov - select Performance Funding and then Performance Funding Workbook.

Total Scored Indicators (See the following pages for details by indicator)	14 Indicators
Exceeded Standards (or received scores of 3) on	5 Indicators
Achieved Standards (or received scores of 2.00-2.99) on	7 Indicators
Did Not Achieve Standards (or received scores of 1.00-1.99) on	0 Indicators
Achieved Compliance (or received scores of "Complied") on	1 Indicators

1 indicator is deferred from measurement in 2002-03 (See attached detail for explanation)

Interpreting Overall Score

Comparing the average score on applicable indicators to the maximum 3.00 possible produces the percentage score shown in the upper right hand corner. Institutions within the same sector whose percentage is in the same range as shown below are considered to be performing at similar levels.

Scale for Overall Scoring Category

Substantially Exceeds	95% to 100% or 2.85 to 3.00
Exceeds	87% to 94% or 2.60 to 2.84
Achieves	67% to 86% or 2.00 to 2.59
Does Not Achieve	48% to 66% or 1.45 to 1.99
Substantially Does Not Achieve	33% to 47% or 1.00 to 1.44

"Performance Funding" in SC began with Act 359 of 1996, effective July 1, 1996, requiring that the SC Commission on Higher Education (CHE) measure annually each public institution's performance in various areas and base allocation of state appropriated dollars on performance. Each year, CHE in cooperation with institutions and other stakeholders has worked to refine the system implemented in 1996 in an effort to ensure and improve the quality of SC's public colleges and universities so they will be globally competitive. Data and scores for indicators used to allocate FY 2003-04 dollars follow. Yearly revisions and differences across and within sectors make comparisons across performance years and institutions difficult. Two years ago, CHE improved the measurement system by strengthening the focus on indicators best reflective of each sector's mission and reducing redundancy among indicators. Using its experience, CHE worked with institutions and others in identifying the 13 or 14 indicators now being used in determining the performance score as those most related to institutional and sector missions. As noted below, indicators not scored are either monitored on a cycle or are measured through existing scored indicators. For a better understanding, please see CHE's website at www.che.sc.gov to access a detailed guide to the system and measurement (Performance Funding Workbook, November 2002) and additional data details by institution.

DATA and SCORING KEY: Below are details for each indicator measured in Performance Year 2002-03, including: the measurement timeframe for this year's performance, historical data, current year's data, the standard used in judging performance, indicator subpart scores, and the single indicator score. Since July 2000, CHE has set standards for similar institutions based on national, regional or state data; data from peer institutions or past institutional performance. For most indicators, performance is judged using a 3-point scale and comparing it to a standard that is expressed as a range. A score of "2" is awarded if an institution is at or within the range. Performance outside the range in the desired direction merits a "3" or exceeds, while performance outside the range in the undesired direction receives a "1." Additionally, 0.5 points are awarded to scores of 1 or 2 for some indicators if performance meets or exceeds an identified level of improvement over past performance. Performance on other indicators is judged by determining institutional compliance with policies or practices. Compliance is expected, and a score of 1 indicates non-compliance. In limited cases, CHE may award scores based on analysis of an institutional appeal requesting special consideration. To determine overall performance as summarized on page 1 and at the end of this report: scores displayed for each indicator in the far right or last column are averaged; the average places the institution in 1 of 5 performance categories; and funding is allocated based on the category, not the individual score or average.

Critical Success Factor 1, Scored Indicator Notes: 1B is measured as the percent of degree programs appropriate to the degree-level authorized for the institution by CHE and Act 359 of 1996; support the institution's goals, purpose, and objectives as defined in its mission statement; and have received full approval in the most recent CHE review of that program. Institution achieved compliance on 1C, Approval of a Mission Statement. 1D&E is defined uniquely for each institution based on an institutional goal and annual targets to be achieved over 3 years.

Status of other indicators: Indicator 1A, Expenditure of Funds to Achieve Institutional Mission, is measured through Indicator 5A, Ratio of Administrative Costs to Academic Costs.

Nursing faculty are excluded for 5 years beginning with Fall 2001 data. Exceptions for terminal degrees as defined by SACS are included for faculty holding the first professional degrees including the JD for those teaching law or the MD, DMD, or PharmD for those teaching in colleges of medicine, dentistry or pharmacy. 2D measures of average faculty salary by rank, except instructor.

See also 7D for additional information on Praxis examination results.

Status of other indicators: Indicators 3A, Class Size and Student/Teacher Ratios, and 3B, Number of Credit Hours Taught by Faculty, will be monitored by the Commission on a 3-year cycle beginning in 2006. Indicator 3C, Ratio of Full-Time Faculty as Compared to Other Full-Time Employees, is measured through Indicator 5A, Ratio of Administrative Costs to Academic Costs.

4. INSTITUTIONAL COOPERATION & COLLABORATION

Cooperation and Collaboration, Measure for teaching	Acad Year		_	2	4-	2	NI/A	NI/A	2.00
4A/B sector institutions	2001-02		3	2	ιο	3	N/A	N/A	2.00

Critical Success Factor 4, Scored Indicator Notes: Measure designed in cooperation with each sector to focus on an area of cooperation and collaboration for the sector. The teaching sector indicator focuses on program advisory boards in order to assess and improve the cooperation and collaboration between the teaching institutions and the profit and non-profit sectors. The teaching sector indicator is a four part measure that assesses compliance on each part and is planned to be in place for four years. Institutions are scored as to the number of parts on which compliance is achieved. For details see pages II.91-98 of the Performance Funding Workbook, Nov 2002.

5. ADMINISTRATIVE EFFICIENCY

5A Percentage of Administrative Costs to Academic Costs	F1 2001-02	15.9%	10.7 70	16.7% Deterre	Note Below for 5A	3-vr avg	deferred	Deferred

Critical Success Factor 5, Scored Indicator Notes: 5A measures the ratio of administrative costs to academic costs where administrative costs are expenditures in instruction research, academic support, and scholarship/fellowship categories, and academic costs are expenditures in the institutional support category. For the 4-year colleges and universities sector, unrestricted funds only are included and funds transfers are excluded. For 5A scoring, a downward performance trend is expected. In Year 7, 5A measurement is deferred due to changes in federal reporting of financial data that affects all public higher education institutions. The measure is under revision for future years.

Status of other indicators: Indicators 5B, Use of Best Management Practices; 5C, Elimination of Unjustified Duplication Of and Waste In Administrative and Academic Programs; and 5D, Amount of General Overhead Costs, are measured through Indicator 5A.

6. ENTRANCE REQUIREMENTS

6A/B SAT and ACT Scores of Student Body and High School Class Standing, GPA and Activities of Student Body	Fall 2002	77.9%	71.0%	81.7%	88.7%	50.0%	to	79.9%	5% of prior 3-yr avg	N/A score=3		3.00
------------------------------------------------------------------------------------------------------------	-----------	-------	-------	-------	-------	-------	----	-------	-------------------------	----------------	--	------

Critical Success Factor 6, Scored Indicator Notes: 6A combined with 6B measures the percent of first-time entering freshmen who take the SAT or ACT or who have reported a high school grade point average or high school class standing who meet or exceed CHE-approved target score on such tests, defined as 1000 or higher on the SAT, 21 or higher on the ACT, an overall high school grade point average of 3.0 or higher on a 4.0 scale, or within the top 30% of the senior-year class.

Status of other indicators: Indicators 6C, Post-Secondary Nonacademic Achievement of Student Body, and 6D, Priority on Enrolling In-State Students, are monitored by the Commission on a 3-year cycle beginning in 2005.

Critical Success Factor 7, Scored Indicator Notes: 7A as applied here measures the rate at which a cohort of first-time, full-time degree-seeking students graduate in 150% of program time. 7D measures the percent of total students taking certification examinations who pass the examination. For all exams, except teacher certification exams, first-time test takers only are considered. Exams vary across institutions due to differences in programs. For institutions with teacher education programs, the PRAXIS PLT scores are excluded. Middle school pedagogy examination (PLT 5-9) scores continue to be excluded to allow for development/adoption of curricula to support this new certification area. For those with dental assisting programs, DANB exam scores are excluded. Details by exam are available online in CHE's Institutional Effectiveness publication "A Closer Look at Public Higher Education in SC," Jan 2003. Indicators 7B, Employment Rate for Graduates, and 7C, Employer Feedback on Graduates Who Were Employed or Not Employed, and 7E, Number of Graduates Who Continued Their Education, are not applicable to this sector.

Status of other indicators: Indicator 7F, Credit Hours Earned of Graduates, is monitored by CHE on a 3-year cycle beginning in 2006, and is applicable to research and teaching institutions, except MUSC.

Critical Success Factor 8, Scored Indicator Notes: For 8C, total headcount is inclusive of all categories: minority, unknown race, white, and non-resident alien. *Minority* is defined as African American, American Indian/Alaskan Native, Asian/Pacific Islander, and Hispanic. Applicable for parts 1 & 2, SC citizens are SC residents for fee purposes plus those with approved non-resident exceptions including those eligible to pay in-state tuition including military, faculty/administration employees, full-time employees or retired persons and dependents of each exception category. For parts 3 & 4, the measure is not limited to SC citizens, and minority is defined consistently for parts 1-4.
